## **Editorial Review**

### **Review**

“In summary, Dirkmaat’s volume would seem to succeed in its stated goal of providing a timely and thorough supplement to generalized textbooks of forensic anthropology.” (*Journal Forensic Sciences*, 28 October 2013)

### **Review**

“An innovative and comprehensive coverage of significant topics (past, present, future) and probable trajectories of the field by a nice range of Old Guard, New Blood, National and International scientists.”  
- *Ted Rathbun, University of South Carolina*

“This new book offers detailed recommendations for the recovery of human remains and a current look at new developments in forensic anthropology, including key international perspective.”  
- *Doug Ubelaker, Smithsonian Institution*

### **From the Back Cover**

*A Companion to Forensic Anthropology* explores the latest theoretical and methodological work in the field, and includes thorough and up-to-date bibliographies. A wide range of international experts provide a comprehensive assessment of the field of forensic anthropology. The companion details how forensic professionals determine skeletal biological profiles and explores important new work on statistical validation of forensic analytical methods. The contributors explain the methods and techniques of forensic archaeology, including the preservation of context at surface-scattered remains, buried bodies, and fatal fire scenes. The companion also offers new perspectives on facial reconstruction, recovery and identification issues related to large-scale mass disaster scenes; mass grave excavation, and human rights goals and practices throughout the world.
