They include Roberto Unger, advocate of plasticity; the historians of antiquity and of revolution, Geoffrey de Ste. Croix and Isaac Deutscher; the philosophers of liberalism, Norberto Bobbio and Isaiah Berlin; the sociologists of power, Michael Mann and W.G. Runciman; the exponents of national identity, Andreas Hillgruber and Fernand Braudel; the ironists of science, Max Weber and Ernest Gellner; Carlo Ginzburg, explorer of cultural continuity, and Marshall Berman, herald of modernity. A concluding chapter looks at the idea of the end of history, recently advanced by Francis Fukuyama, in its successive versions from the nineteenth century to the present, and considers the situation of socialism today in the light of it.

Editorial Review

From Library Journal

In the world of contemporary social theory, a new book by Anderson is a major event. The publication of two books, even of collected essays, is a completely unprecedented development. Fans of one of Britain's most illustrious historians will find plenty of good reading in these long-anticipated volumes. Culled primarily from the pages of the London-based *New Left Review*, Anderson's essays range over such topics as the rise of the English state, the character of democracy in ancient Greece, and intellectual life under Mrs. Thatcher. The pieces in *English Questions* are centered around the question of why English society and culture exhibits such a profoundly conservative tendency. *A Zone of Engagement*, by way of contrast, assesses the work of such seminal figures as Isaiah Berlin, Antonio Gramsci, and Max Weber. These erudite books are essential for larger or academic libraries.
