### Editorial Review

#### Review

This little book lays out about as idealistic a vision of Druidism as one can hope for. According to tradition, the ancient Druids spent at least twenty years in study before claiming that title, and there are many excellent books and teachers in the world who can provide the Druid initiate with the knowledge of the ancient laws and teachings. But this is not a book about Celtic scholarship or the historical Celts, rather it is a guide to how to BE a modern Druid in the world today. The author teaches aspiring Druids to be ecologically conscious, wise persons who act with reverence towards all life, because after all we are all related; plants, trees, animals, people, and spiritual beings. How much healthier would the Earth be today if we had retained our ancient reverence for the sacred Land and its creatures? - Ellen Evert Hopman, author of *A Druid's Herbal of Sacred Tree Medicine*, *Priestess of the Forest*, *The Druid Isle*, *Priestess of the Fire Temple*, and other volumes.
