A Practical Guide to Dragons (Practical Guides) By Lisa Trumbauer

This lavishly illustrated guide showcases the wide array of fantastic dragons encountered on the world of Krynn. Sindri Suncatcher—wizard's apprentice—opens up his personal notebooks to share his knowledge of these awe-inspiring creatures, from the life cycle of a kind copper dragon to the best way to counteract a red dragon's fiery breath.

The perfect companion to the Dragonlance: The New Adventures series, this beautifully illustrated title introduces readers to the looks and habits of dragons of the **Dragonlance** world. With tips and tricks every new adventurer can use on imaginary encounters with dragons, this book will enchant readers with both pictures and words.

About the Author

Sindri Suncatcher is a three-and-a-half foot tall kender, who enjoys storytelling, collecting magical tokens, and fighting dragons. He lives in Solamnia and is currently studying magic under the auspices of the black-robed wizard Maddoc. You can catch Sindri in the midst of his latest adventure in *The Wayward Wizard*.

Editorial Review

Amazon.com Review

Did you know dragons hate sweet flavors? Or that the Draconic word for ugly is "nurh"? Or that the best place to find a green dragon is behind a waterfall? Any dragon buff worth his or her salt needs to know the ins and outs of these frightful, spectacular creatures. And Sindri Suncatcher, the wizard apprentice narrator of *A Practical Guide to Dragons* is just the man for the job. Although he forbids potential readers from opening the book, the insatiably curious will ignore the warning and begin reading Sindri's "scrolls" to learn what the sometimes foolishly fearless kender (small, mischievous hobbit-like man) has learned about dragons.

This gorgeously illustrated book by Lisa Trumbauer will provide hours of absorbed entertainment for humans in search of the nittiest grittiest details about dragons, from anatomy and physiology to combat techniques to society to language to the many types of dragons. Packed with details, it also is infused with sly humor throughout, with many allusions to Sindri's adventures with dragons, as well as to his colorful family (the book is dedicated to Aunt Moonbeam). --*Emilie Coulter*

From School Library Journal

Grade 3-7—Readers of "Dragonlance: The New Adventures" series (Mirrorstone) will recognize the "inscriber" of this book, an elf-eared "kender" named Sindri Suncatcher. Having gleaned much of his knowledge from a wizard mentor, he begins his book with a general look at the anatomy and life cycle of dragons. The bulk of the work is divided into six-page chapters, each introducing a specific species with a fierce-looking, full-page portrait and descriptions of physical attributes, offspring ("Eggs"), development ("Wyrmings"), adult behavior, lair, and combat skills. Inset paintings, labeled anatomical sketches, and maps decorate the pages, which are shaded to look like parchment. Readers will learn that red dragons are "ferocious and cruel" and live in volcanoes, blue ones use their lightning breath to cook their food, brass dragons prefer talking to fighting, and gold ones spend most of their lives in human form. Filled with interesting and quirky details, this well-imagined manual is fun to browse. Although readers unfamiliar with Sindri's world may feel lost by references to the character's compatriots and experiences, this offering may appeal to die-hard fantasy fans.—*Joy Fleishhacker, School Library Journal*

Users Review

From reader reviews:

Pamela Steele:

Book will be written, printed, or illustrated for everything. You can learn everything you want by a publication. Book has a different type. To be sure that book is important matter to bring us around the world. Close to that you can your reading proficiency was fluently. A reserve *A Practical Guide to Dragons* (Practical Guides) will make you to end up being smarter. You can feel much more confidence if you can know about every thing. But some of you think that open or reading any book make you bored. It's not make you fun. Why they may be thought like that? Have you in search of best book or appropriate book with you?

Theresa Diaz:

What do you regarding book? It is not important along with you? Or just adding material when you want something to explain what your own problem? How about your extra time? Or are you busy particular person? If you don't have spare time to accomplish others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Everybody has many questions above. The doctor has to answer that question due to the fact just their can do this. It said that about e-book. Book is familiar on every person. Yes, it is right. Because start from on guardería until university need this kind of A Practical Guide to Dragons (Practical Guides) to read.

Anthony Rodriguez:

Do you like reading a guide? Confuse to looking for your chosen book? Or your book was rare? Why so many concern for the book? But almost any people feel that they enjoy for reading. Some people likes reading, not only science book but also novel and A Practical Guide to Dragons (Practical Guides) or others sources were given knowledge for you. After you know how the fantastic a book, you feel need to read more and more. Science e-book was created for teacher or perhaps students especially. Those publications are helping them to increase their knowledge. In different case, beside science publication, any other book likes A Practical Guide to Dragons (Practical Guides) to make your spare time more colorful. Many types of book like here.

Cami Raley:

As a university student exactly feel bored to reading. If their teacher asked them to go to the library or make summary for some book, they are complained. Just very little students that has reading's heart and soul or real their passion. They just do what the educator want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that examining is not important, boring along with can't see colorful images on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this A Practical Guide to Dragons (Practical Guides) can make you sense more interested to read.
