Editorial Review

Amazon.com Review

An Amazon Best Books of the Month, October 2013: Veronica Roth had her work cut out for her, ending a trilogy that had fans rabid for the final book, and she pulled it off like a champ. *Allegiant* kicks off right where *Insurgent* ended, so if it's been a while since you read that one you might want to re-read the last couple of chapters to orient yourself. The first surprise in *Allegiant* is that Roth has switched to using alternating narratives of Tris and Four. At last readers get to see Tris as Four sees her and if, like me, you've been dying to get inside his head, you finally get your chance. One of the best things about this trilogy is the messy, passionate, and wholly authentic love story between these two. For Tris and Four, there is no love triangle, there are no sides to take--as in life, it's only a matter of how their relationship will play out. *Allegiant* answers a lot of questions and also delivers some jaw-dropping twists--readers will go outside the fence, learn the origin story of the factions, and, of course, see how it all ends in a finale that packs a wallop and confirms Roth as a writer to watch for a long time to come. --Seira Wilson

From School Library Journal

Gr 9 Up—Tris and Tobias and their friends and enemies continue their Chicago-area adventures, 200 years in the future, in Roth's trilogy closer (HarperCollins, 2013). Edith Prior's tape blew the lid off the secret history of the factions and how they evolved to be the organizing force in society. Now, one group shouts "Death to the factions!" while the other writes the Allegiant Manifesto, declaring that factions are the way society was meant to be. Divergents like Tris are no longer considered rejects, but instead are declared Genetically Pure. Tobias, once a proud Dauntless leader, now struggles with the knowledge he is Genetically Damaged and a second-class citizen in the eyes of many. The chapters switch points of view between Tris and Tobias as each struggles to come to terms with their respective family histories and their love for each other. Like the previous books, this story involves gun play, deaths, loyalty, forgiveness, romance, and lots of intrigue and double crossing. The powers of faction serums and vaccines, gene manipulation, and specific technologies expand to cover some gaps in the story line, but these leaps of imagination keep things moving along. The author's choice to kill a major character will shock some listeners. Narrator Emma Galvan returns as Tris, and Aaron Stanford voices Tobias with earnest and measured tones that complement Galvan's deliberate style. Listeners will fully believe these teens could outsmart self-centered and power-hungry adults to give society a brighter future. A must where the first books are popular.—Maggie Knapp, Trinity Valley School, Fort Worth, TX

From *Booklist*

If *Divergent* (2011) boasted a stark clarity and *Insurgent* (2012) bordered on the incomprehensible, this trilogy finale falls squarely in the middle: though plenty of fat goes uncut, the plot is both followable and logical. While Roth's strength has never been characterization (side characters continue to be more or less interchangeable), she does, by the brave ending, elicit a long-in-coming and, frankly, well-earned emotional response. Power couple Tris and Tobias, on trial as traitors, manage to escape their dystopic Chicago only to land in the hands of the Bureau, a government agency that is watching the "experiment" of the Factions unfold. This pulling-back-of-the-curtain and the accompanying "fight against genetic damage" may be the single most fascinating idea of the entire series, though there isn't much lingering upon it before, once more, Tris and Tobias must judge a new cast of characters as friend or foe between episodes of bickering and kissing. While the prose feels hasty and repetitive, it does turn pages, which is the meter by which the gargantuan fan base will judge it. **HIGH-DEMAND BACKSTORY:** This heir to *The Hunger Games* is arguably the highest-demand book of the year. Expect total saturation leading up to the 2014 movie. Resistance is futile. Grades 8-11. --Daniel Kraus

Users Review

From reader reviews:

Irene Vaughan:

The book Allegiant (Divergent Trilogy, Book 3) can give more knowledge and also the precise product information about everything you want. Exactly why must we leave the good thing like a book Allegiant (Divergent Trilogy, Book 3)? Wide variety you have a different opinion about publication. But one aim which book can give many information for us. It is absolutely appropriate. Right now, try to closer with the book. Knowledge or details that you take for that, you may give for each other; you are able to share all of these. Book Allegiant (Divergent Trilogy, Book 3) has simple shape but the truth is know: it has great and big function for you. You can appearance the enormous world by wide open and read a book. So it is very wonderful.

Thomas Jones:

The ability that you get from Allegiant (Divergent Trilogy, Book 3) is a more deep you digging the information that hide inside words the more you get thinking about reading it. It does not mean that this book is hard to comprehend but Allegiant (Divergent Trilogy, Book 3) giving you enjoyment feeling of reading.
