Networking Complete By Sybex

From LANs to WANs to the Internet itself, computer networking has become a crucial component of life in the 21st century. Businesses need networks to share information, computer resources, and Internet access, and nowadays many homes need a network for the same reason. Those designing, installing, maintaining, and administering networks need information on all aspects of networking from planning to protocols. This text provides a complete resource on networking, including coverage of hardware, software, and related technologies. It now covers Windows 2000 and Linux networking.
