From the Ivy Leagues of Harvard, Princeton, Yale, and Cornell to the UK, India, Germany, Italy, Brazil, Mexico, and New Zealand, ReThink Food's experts explain how we can reverse heart disease and diabetes, eliminate food allergens and autoimmune diseases, live pain-free from arthritis, prevent Alzheimer's, even bring cancer into remission and much more by completely removing all animal products from our plates. In the history of disease we have never before faced such rampant levels of illnesses. We are turning to prescriptions for answers, but they do not address the root cause of diseases. The truth is our health is not completely dictated by our genes. Our meat and dairy diets are the primary cause of our alarming rise in chronic health problems and disease.
