Editorial Review

Review

"I have been using the CengageNOW for Payroll Accounting for a number of years. I use it to assign homework problems for students and assign points for these problems. This is an excellent way for students to work the problems on their own and apply the concepts presented in each of the chapters. Having CengageNOW really forces the students to work the problems if they wish to earn the points being offered for their completion."

"We love the current Payroll textbook. Have used it for several years and will continue to use it."
