Small Spaces, Big Yields: A Quick-Start Guide to Yielding 12 or More Ounces Indoors (MJAdvisor) By Read Spear

****Featured in High Times March 2014 issue!****

Hands-down the best fast-start guide to growing pot that you can buy for under for under \$5!

If you have already purchased Marijuana Cultivation Reconsidered, you already have this book--Small Spaces, Big Yields IS THE MIDDLE SECTION OF Marijuana Cultivation Reconsidered!

=>NOTE: THIS IS AN EXCERPT. IF A COMPREHENSIVE BOOK IS WHAT YOU WANT, THEN "MARIJUANA CULTIVATION RECONSIDERED" IS THE BOOK FOR YOU. THIS IS A FAST-START GUIDE.<=

A former Colorado Medical Marijuana Center owner and professional grower explains the techniques needed to hit big numbers in your indoor grow using tried and proven deep water culture and soil techniques. The author was the second approved grower under Colorado's medical marijuana law and has grown literally thousands of plants using every imaginable technique and sorted what works from what doesn't.

Small Spaces, Big Yields is a concise text aimed at hobbyists who already know the basics of growing marijuana, but aren't getting the results they know they could be getting.

Today's indoor grower is faced with too much information, much of it simply incorrect. This is often confusing and can lead to low yields or sick plants. Small Spaces, Big Yields cuts through the fluff and gets right to the practicalities of growing huge plants at home. You have the "Bible", now learn what the pros are doing!

In Small Spaces, Big Yields you will learn:

- How to set up your own high-efficiency grow room
- How to build your own deep water culture system that can left alone for a week or more
- How to identify the most common problems and correct them
- How to pick the right strain
- The 6 environmental variables and how to maintain them
- The difference between organic and synthetic nutrients
- Why and how soil changes over time
- How to mix your own potting soil
- How to choose the most efficient light
- Training for SCROG style growing
- Why sweeteners don't work
- How to save money by understanding basic plant physiology
- The two most common causes of problems in the grow room and how to avoid them

...and much, much more!

If a concise just-the-facts tune-up to your growing technique is what you are seeking, you've found it!

Editorial Review

From the Author

Thank you for checking out "Small Spaces, Big Yields," which has been an Amazon #1 Bestseller in Gardening Reference since shortly after it was published. I think the reason why "Small Spaces, Big Yields" has become so popular is because it goes right for the nitty gritty of building out a grow room and getting plants under lights and skips all of the "academic" content. It is a very to-the-point book. For a lot of people, this is the way to go--just the ABC's and no more. I respect that. I also hope many of you who prefer this style will become curious over the course of your growing hobby and return to get a copy of the much more thorough "Marijuana Cultivation Reconsidered."

I have recently (August 2014) updated and revised "Small Spaces, Big Yields"--it is up from about 75 pages to around 150 or so pages. Although it stands as its own entity, this book, "Small Spaces, Big Yields," now comprises the second section of my expanded book, "Marijuana Cultivation Reconsidered."

Despite the expanded content, I have decided to keep the price for SSBY under \$5. It is very appealing to me to be able to offer a great just-the-facts book for under \$5 because I really want people to grow their own pot--it's so important politically and economically that people do so. Unless we continue to grow our own we will not only fail politically, but we run the risk of becoming passive consumers of the burgeoning new marijuana products industry. Who wants that? It is much better to be self-reliant. Get growing.

About the Author

Read Spear began cultivating in the late 80's. His medical marijuana dispensary was the second one to be issued its Medical Marijuana Center license in the state of Colorado. He is active as a consultant in the industry, specializing in new business development, business funding, and mergers and acquisitions.

Read has two degrees in philosophy, a Bachelor of Arts from The Pennsylvania State University and a Master of Arts from The Duquesne University of the Holy Ghost in Pittsburgh. He lives in Colorado with his hound dog when he is not traveling.

Questions and comments are welcomed. You may contact the author through his website: MJAdvisor.com.

Users Review
