EDGE By Koji Suzuki

Edge begins with a massive and catastrophic shifting of the San Andreas fault. The fears of California someday tumbling into the sea--that have become the stuff of parody--become real. But even the terror resulting from this catastrophe pales in comparison to the understanding behind its happening, a cataclysm extending beyond mankind's understanding of horror as it had previously been known. The world is falling apart because things are out of joint at the quantum level, about which of course there's never been any guarantee that everything has to remain stable.

Koji Suzuki returns to the genre he's most famous for after many years of "not wanting to write any more horror." As expected from Suzuki, the chills are of a more cerebral, psychological sort, arguably more unsettling and scary than the slice-and-dice gore fests that horror has become known in the U.S. Never content to simply do "Suzuki"--as it were--but rather push the envelope on what horror is in general and for which readers have come to know him, *Edge City* borders on being cutting-edge science fiction. The author himself terms this novel, which he has worked on for some years, a work of "quantum horror."

Editorial Review

Users Review

From reader reviews:

Roberto Fetter:

Within other case, little persons like to read book EDGE. You can choose the best book if you appreciate reading a book. Provided that we know about how is important some sort of book EDGE. You can add knowledge and of course you can around the world by way of a book. Absolutely right, due to the fact from book you can know everything! From your country until eventually foreign or abroad you will be known. About simple thing until wonderful thing you may know that. In this era, we could open a book as well as searching by internet gadget. It is called e-book. You can utilize it when you feel bored to go to the library. Let's read.

Daniel Starkey:

This EDGE are usually reliable for you who want to be considered a successful person, why. The reason of this EDGE can be among the great books you must have is actually giving you more than just simple examining food but feed a person with information that might be will shock your earlier knowledge. This book will be handy, you can bring it all over the place and whenever your conditions throughout the e-book and printed ones. Beside that this EDGE forcing you to have an enormous of experience like rich vocabulary, giving you trial of critical thinking that could it useful in your day activity. So , let's have it and revel in reading.

Richard Bennett:

A lot of people always spent their own free time to vacation or go to the outside with them household or their friend. Were you aware? Many a lot of people spent they will free time just watching TV, or perhaps playing video games all day long. If you would like try to find a new activity honestly, that is look different you can read the book. It is really fun in your case. If you enjoy the book which you read you can spent all day every day to reading a guide. The book EDGE it is extremely good to read. There are a lot of individuals who recommended this book. These folks were enjoying reading this book. In the event you did not have enough space to develop this book you can buy the e-book. You can m0ore quickly to read this book through your smart phone. The price is not too expensive but this book possesses high quality.

Sandra Leggett:

Do you like reading a book? Confuse to looking for your chosen book? Or your book was rare? Why so many issue for the book? But any people feel that they enjoy for reading. Some people likes studying, not only science book and also novel and EDGE as well as others sources were given information for you. After

you know how the truly great a book, you feel need to read more and more. Science e-book was created for teacher or maybe students especially. Those books are helping them to include their knowledge. In some other case, beside science publication, any other book likes EDGE to make your spare time far more colorful. Many types of book like this.
