### **Editorial Review**

#### **Amazon.com Review**

This is a good, solid guide to basic grammar by two women who claim to be "nutty enough to have liked diagramming in school." Their book is clear. It is not boring. It even compares punctuation marks to traffic signals (a period is a stop sign, a comma a flashing yellow light). But its crowning glory is the nearly 30 cartoons--from *Sally Forth*, *Beetle Bailey*, *The Far Side*, and others--on the subject of grammar that are sure to delight anyone who is nutty enough to have liked diagramming in school. In our favorite, Hobbes tries to persuade Calvin that a pronoun is "a noun that lost its amateur status." Calvin, after pondering for a moment, writes it down. "Maybe I can get a point for originality," he says. --*Jane Steinberg*

#### **From Library Journal**

Fine and Josephson teach "Nitty-Gritty" Grammar for the San Diego State University extension program and have written many books, including *FileADon't Pile!* (St. Martin's, 1994). Their new book is a clever and fun way to review or learn the rules of grammar. Included are all of the hokey rhymes and sayings learned in grammar school, e.g., "Use i before e except after c, or when sounded like a as in neighbor or weigh." Each page has an example sentence illustrating a common mistake and a reference to the rule that explains it, and jokes and comics are used throughout to keep things light. Now there's finally hope that some readers may learn how to diagram a sentence. This is a useful book at a good price and fun besides. Recommended for all public libraries. ALisa J.
