## **Settle: A Family Journey Through Slavery** By Charles D. Rodenbough

Although this is an historical novel, it is based on a factual family and branches of that family with different racial identities. Since this is such a well known family in the South and it had a record of racial mixing during slavery and a shared concern for the Union and racial justice, there are mixed venues in which to examine particular racial attitudes within the family. I have used dialogue to interpret what might have been the discussions within the family but have added Editor's Notes in order to distinguish facts and a Bibliography to identify my sources. There is also a Teaching Supplement available to use in schools or as home study, of interpretive racial history. This method is particularly designed to assist African American children to use the interpretation of history within this family for understanding Justice and to gain greater self awareness and identity. This book is part of the Sauratown Project Understanding the Flow of Ancestry.
