**Shattered Trident (A Jerry Mitchell Novel) By Larry Bond**

While trailing a Chinese nuclear attack sub, Jerry Mitchell, the captain of USS *North Dakota*, is shocked to see the Chinese boat torpedo a Vietnamese merchant ship.

This blatant act of aggression is the opening gambit in a war that has blindsided the U.S. and quickly embroiled all nations in the western Pacific. These nations, bound together in the newly formed Littoral Alliance, have begun a covert submarine campaign aimed at crippling China's economy before China can set in motion its own plot to dominate the region.

In a desperate attempt to buy the president enough time to resolve the crisis diplomatically, Mitchell's submarine squadron is ordered to interfere with attacks by both sides. China and the Littoral Alliance are both determined to win, no matter the cost, and as each side increases the level of violence, they approach a dangerous tipping point. Larry Bond's *Shattered Trident* is a race against time, as the submarines of Mitchell's squadron must execute their mission before the world witnesses an economic catastrophe?or worse, a nuclear exchange.

**This edition of the book is the deluxe, tall rack mass market paperback.**

### Editorial Review

#### From [Booklist](#)

Jerry Mitchell, Bond's hero in three previous adventures, now commands his own sub, the USS North Dakota. While trailing a Chinese nuclear sub, Mitchell observes it torpedoing a Vietnamese ship. Soon Mitchell and his crew find themselves watching a war build up around them. Orders from high say they can only observe, and they cannot fire on another vessel, even if it means their own destruction. They can only hope the situation can be resolved diplomatically before the entire globe burns. Bond has plenty of military background, and his novels ooze authenticity, but readers expecting an action-packed novel along the lines of Vince Flynn will be disappointed. This one is more about realism and the nuances of military power than explosions and high-tech derring-do. Still, those who like their military thrillers grounded in the real world will be eager for another story featuring Mitchell and his crew. --Jeff Ayers
