### **Editorial Review**

#### **Review**

"Among the textbooks I have used for teaching public financial management and budgeting, my MPA students found Shawn's book most accessible, readable, and valuable. The examples and the step-by-step explanations on the use of Excel spreadsheets in the book are extremely helpful for students without any prior experiences in budgeting and finance." --Hua Xu, Auburn University, Montgomery

"This book is a gem. One of its important strengths is that it enables the reader to understand financial statements, which empowers them to use this information to make vital decisions for their organizations. No manager in government can be competent without this ability, and I know of no better source for learning it than Wang's book." --John R. Bartle, University of Nebraska at Omaha
