## Mastering the Stock Market: High Probability Market Timing and Stock Selection Tools (Wiley Trading) By John L. Person

**Noted technical analyst John Person outlines a comprehensive method to pinpointing today's best trading opportunities**

The economy and stock market are heavily influenced by seasonal factors. For example, a strong holiday buying season tends to be bullish for retail stocks or rising energy costs hurt airline profitability. Awareness of seasonal trends in both the economy and stock market can put you in a better position to profit from sectors and stocks that are likely to outperform the overall market. And technical tools can then be used to confirm emerging trends and time entries into these stocks and sectors.

*Mastering the Stock Market* provides authoritative insights into a method for trading stocks based on seasonal trends, sector analysis, and market timing. Taking a top-down approach, the book explains how seasonal supply/demand forces impact commodities and different sectors of the stock market. After learning how to identify stock market sectors and commodity ETFs that are ripe for a big move, you'll quickly discover how to use technical analysis to gauge the strength of the sector or commodity and then identify the strongest stocks and ETFs to trade. Along the way, you'll also learn how to use the author's own indicators, Persons Pivots, to identify support/resistance areas and pinpoint optimal entry and exit points.

- Outlines a proven technical approach for trading stocks based on seasonal trends, sector analysis, and market timing
- Breaks new ground in comparative relative strength, trading volume, breadth indicators, and utilizing pivot analysis in conjunction with options expiration days to identify trading opportunities
- Written by noted technical analyst John L. Person

To successfully trade today's markets you need to use a proven approach and have the discipline to effectively implement it. *Mastering the Stock Market* has what you need to achieve these goals and capture consistent profits along the

way.

### Editorial Review

#### From the Inside Flap

For more than thirty years, noted technical analyst John Person has honed his investing skills as a floor trader, broker, analyst, and founder of NationalFutures.com. Now, in *Mastering the Stock Market*, Person offers sophisticated traders as well as those new to the field a wealth of information on his proven trading concepts. Throughout the book, he outlines a comprehensive top-down approach to capturing profits that entails making more-informed trading decisions and pinpointing the best possible opportunities.

Today's rapid-fire technology offers you a more equal playing field when determining pricing, accessing various markets, and identifying platform transparency. *Mastering the Stock Market* gives traders an extra advantage by outlining the most relevant tools for making investment decisions that are characterized by lower risk and ultimately prove to be more profitable. Some of the tools Person touches upon include:

- Sector and seasonal trend analysis
- Contrarian and momentum indicators
- Price patterns
- Volume studies (OBV)
- Breadth indicators (Advance/Decline)
- Moving averages
- Support and resistance

Using the information outlined here, you'll discover the answers to the important questions all successful traders must ask, such as: what is the value of a certain stock, commodity, or ETF?

Awareness of seasonal trends in both the economy and stock market can put you in a better position to profit from sectors and stocks that are likely to outperform the overall market. And technical tools can then be used to confirm emerging trends, among other things. Person shows you how using a combination of both approaches can give you an edge in your trading endeavors. In addition to this, *Mastering the Stock Market* shows you how to use the author's own indicators, Person Pivots, to identify support/resistance areas and pinpoint optimal entry and exit points.

There are still opportunities to make money in today's markets. The key is choosing the right sectors and the right stocks, at the right time. *Mastering the Stock Market* reveals how you can effectively implement this proven approach and achieve your trading goals.

#### From the Back Cover

#### Praise for *Mastering the Stock Market*

"John Person is one of the most experienced and knowledgeable instructors in the business. He transmits that knowledge in this book, which is full of useful technical analysis techniques."

—**LAWRENCE G. McMILLAN**, author of *Options as a Strategic Investment* and *McMillan on Options*

"Person's book is simple enough for investment beginners to understand and advanced enough for trading

veterans to gain new insights. By combining sector and seasonal analysis with technical timing tools, Person offers a well-rounded approach to market timing. His use of exchange-traded funds (ETFs) offers an easier way to implement the strategies explained in the book. Investors should benefit from reading it."

—JOHN MURPHY, author of *Trading with Intermarket Analysis: A Visual Approach to Beating the Financial Markets Using Exchange-Traded Funds*

"There are many books on technical analysis covering every aspect of the art. However, there are not many that put together the entire process like John has with *Mastering the Stock Market*. If you have already read a lot of technical analysis books, you still need to read this one."

—GREG MORRIS, Chairman, Investment Committee and Chief Technical Analyst, Stadion Money Management

## About the Author

**JOHN L. PERSON** is a thirty-two-year veteran of the trading industry, having worked as a floor trader, broker, analyst, and founder of NationalFutures.com, an online education site. He developed the Person Pivots (PPS) and other technical indicators that are on several companies' popular trading platforms, including TD Ameritrade, TradeStation, Open E Cry, NinjaTrader, Tradesignal, and Trade Navigator. Person has taught thousands of traders including members of the largest exchanges, and frequently speaks at industry conferences. He is the author of three nationally and internationally popular trading books as well as three trading courses and a DVD seminar series. Person's latest book, *Commodity Trader's Almanac*, is the authoritative guide to trading the seasonal aspects of the commodity markets and the correlated ETFs and stocks of those markets.
