## Radiography of the Dog and Cat: Guide to Making and Interpreting Radiographs

By M. C. Muhlbauer, S. K. Kneller

*Radiography of the Dog and Cat: Guide to Making and Interpreting Radiographs* offers a comprehensive guide to producing high-quality radiographs and evaluating radiographic findings. Equally useful as a quick reference or for more in-depth information on specific diseases and disorders, the book is logically organized into sections describing how to make high-quality radiographs, normal radiographic anatomy, and interpretation of radiographic abnormalities. It is packed with checklists for systematic evaluation, numerous figures and line drawings, and exhaustive lists of differential diagnoses, resulting in an especially practical guide for the radiographic procedures performed in everyday practice.

Written in a streamlined, easy-to-read style, the book offers a simple and fresh approach to radiography of the dog and cat, correlating physics, physiology, and pathology. Coverage includes patient positioning, contrast radiography, normal and abnormal radiographic findings, and differential diagnoses as they pertain to musculoskeletal, thoracic, and abdominal structures. *Radiography of the Dog and Cat: Guide to Making and Interpreting Radiographs* is a one-stop reference for improving the quality and diagnostic yield of radiographs in your clinical practice.

### Editorial Review

#### Review

"I reckon that if you adopt the recommended and very logical approach, you will become a real champion in radiography interpretation. Are you ready for the challenge?." ("Tomorrow's vets", 1 September 2013)

"It may be used as either a quick reference on the job, or for more in-depth information on specific disorders, and is arranged by sections describing the basics of radiographic anatomy and interpretation. Checklists for evaluation, charts, line drawings and visuals, and discussions of both analog and digital radiography systems provide concrete techniques for improving radiographs and diagnosis from them, making this a 'must' reference for any vet student or practicing technician." ("Midwest Book Reviews", 1 October 2013)

"I reckon that if you adopt the recommended and very logical approach, you will become a real champion in radiography interpretation. Are you ready for the challenge?." ("Tomorrow's vets", 1 September 2013)

"Radiography of the Dog and Cat: Guide to Making and Interpreting Radiographs is a fine guide for any professional looking for detailed specifics for dog and cat care, and provides a key to evaluating radiographic findings. From describing how to make high-quality radiographs and interpretations of abnormalities to figures, line drawings, and lists of diagnoses, this is written as both a quick reference and as a comprehensive new approach to radiography which blends physiology, pathology and physics. From making and interpreting quality radiographs to evaluation checklists and different radiography systems, this is packed with the latest technical details and comes with a companion website featuring review questions, positioning guide, and more. With its many specific details, Radiography of the Dog and Cat is a 'must have' reference for any veterinary collection and for libraries appealing to technicians." ("Midwest Book Review", 1 December 2013)

## Key features

- Provides a practical guide to making and interpreting quality radiographs
- Includes complete evaluation checklists, extensive differential diagnoses, and numerous figures and line drawings
- Serves as both a fast access manual to key information and as a more detailed reference to specific diseases, disorders, and abnormal radiographic findings
- Discusses both analog and digital radiography systems
- Offers concrete guidance for improving the quality of radiographs and the accuracy of diagnosis
- Includes a companion website featuring review questions, a positioning guide, and figures and the glossary from the book at [www.wiley.com/go/muhlbauerradiography](http://www.wiley.com/go/muhlbauerradiography)

## About the Author

**M.C. Muhlbauer**, DVM, MS, DACVR, is President and CEO of Veterinary Imaging Specialists, PC.

**S.K. Kneller**, DVM, MS, DACVR, is Associate Professor Emeritus of Veterinary Clinical Medicine at the College of Veterinary Medicine, University of Illinois at Urbana-Champaign.

## Users Review

### From reader reviews:

#### **Mollie Walker:**

This Radiography of the Dog and Cat: Guide to Making and Interpreting Radiographs are usually reliable for you who want to become a successful person, why. The reason why of this Radiography of the Dog and Cat: Guide to Making and Interpreting Radiographs can be among the great books you must have is giving you more than just simple reading through food but feed a person with information that maybe will shock your preceding knowledge. This book is usually handy, you can bring it almost everywhere and whenever your conditions in the e-book and printed versions. Beside that this Radiography of the Dog and Cat: Guide to Making and Interpreting Radiographs giving you an enormous of experience such as rich vocabulary, giving you tryout of critical thinking that we all know it useful in your day action. So , let's have it and enjoy reading.

#### **Curtis Salas:**

Reading a reserve tends to be new life style in this era globalization. With examining you can get a lot of information that could give you benefit in your life. Using book everyone in this world may share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their particular reader with their story as well as their experience. Not only situation that share in the guides. But also they write about the data about

something that you need instance. How to get the good score toefl, or how to teach your kids, there are many kinds of book that exist now. The authors on earth always try to improve their talent in writing, they also doing some exploration before they write to their book. One of them is this Radiography of the Dog and Cat: Guide to Making and Interpreting Radiographs.

**Darla Kemp:**

Within this era which is the greater person or who has ability in doing something more are more treasured than other. Do you want to become one of it? It is just simple method to have that. What you should do is just spending your time not much but quite enough to enjoy a look at some books.
