### **The Young Bond Series, Book One: SilverFin (A James Bond Adventure, new cover) By Charlie Higson**

What does it take to become the greatest secret agent the world has ever known? In this thrilling prequel to the adventure of James Bond, 007, readers meet a young boy whose inquisitive mind and determination set him on a path that will someday take him across the globe, in pursuit of the most dangerous criminals of all time.

Thirteen year-old James Bond cannot wait to get away from Eton, his stuffy boarding school, and visit his aunt and uncle in the Highlands of Scotland. Upon arriving, he learns that a local boy, Alfie Kelly, has gone missing. James teams up with the boy's cousin, Red, to investigate the disappearance. The clues lead them to the castle of Lord Hellebore, a madman with a thirst for power. Despite unknown dangers, James is determined to find the lost boy. But what he discovers in the dark basement of Hellebore's estate will forever change his life.

### Editorial Review

From School Library Journal

Grade 6-9-The first of a projected series sanctioned by the Ian Fleming estate finds young James at Eton. It's the 1930's and memories of World War I intrude often as James finds a place among friends but attracts the unwanted attention of an older American boy and his very rich father, a Scots lord. Lord Hellebore and his son are bullies with over-the-top ambition for success at all costs. When the term ends, James heads north to his Uncle Max's cottage in Scotland where his Aunt, who has raised him since his parents' death in a climbing accident, has gone to care for her dying brother. The discovery that the frightening Lord Hellbore is the local laird comes just as James meets a cockney boy named Red Kelly who has stowed away on the train, off to help locate his young cousin, Alfie, who has gone missing near the laird's estate at Loch Silver Fin. James and Red team up to solve the mystery of Alfie's disappearance. James's leadership skills are apparent as he recruits a local girl and even young George Hellebore in his quest to undo the vile experiments occurring at the laird's castle. Charlie Higson's novel (Miramax Books, 2005) is skillfully and dramatically read by Nathaniel Parker, who gives every character a distinct voice. Fans of James Bond movies as well as Anthony Horowitz's Alex Rider books will be eager to listen to this fine spy thriller.—*Jane P. Fenn, Corning-Painted Post West High*

Gr. 5-8. The name's the same--Bond, James Bond. But the face is different. And no wonder: the late Ian Fleming's fabled superspy is only 14 years old in this newly launched, lavishly promoted, high-concept series. Higson struggles heroically to incorporate all Fleming's trademark ingredients. There's a ravishing heroine (who rides a horse named Martini); a larger-than-life villain (a wealthy American with large, flashing white teeth who is "mad, I tell you, mad"); and lots of melodramatic nonsense about eels and eugenics. The problem is that young Bond is a bit of a cipher, and the story takes forever to get going. Then once things heat up, they go on too long and, worse, too predictably. Part of the problem is endemic to all new series: the need to establish characters, background, etc. But one hopes that Higson will give more attention, in future volumes, to fresher plotting and fleshing out the character of his hero. *Michael Cart*
